## DETAILED ACTION

### *Information Disclosure Statement*

1. Applicant's information disclosure statement filed on 07 October 2005 has been considered for this Office Action.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3, 23 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Deniston (SU 295,526).

An epaulette (A,B,C) for securing to a garment includes a hinge means (a), a first part (C) and elongated second part (A). The first part extends from the hinge means and adapted to be secured to the garment (F) by means of a distal portion (D or by b extending from a distal end) of the first part with the distal portion of the first part in a

first position at or adjacent to a shoulder area of the garment (Figs. 1-3). The elongate second part (A) extending from the hinge means and adapted to be secured to the garment by means of a distal portion of the second part at a second position on the garment that in use of the garment is laterally inward of the first position (Figs. 1-3).

The epaulette further includes an elongate third part (e) secured to the first part and adapted to be secured to an underside of the second part by first attachment means at an attachment position on the second part that in use of the epaulette is laterally inward of the hinge means (Figs. 1-3).

The third part is positioned closely adjacent to the garment between the first part and the attachment position in use (Figs. 1-3).

The distal portion (D) of the fabric is adapted to be secured directly to the garment (Figs. 1-3).

The epaulette further comprises an elongated third part secured directly to the distal portion of the first part and adapted to be secured to the garment such that the first part is secured to the garment via the third part (Figs. 1-3).

#### ***Allowable Subject Matter***

4. Claims 5-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1-3, 23 and 24 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
